

PHOTO SUBMISSION GUIDE

R H

Your photo:

Preferred file size is 2448 pixels by 3264 pixels 72 DPI.

Smaller files will appear blurry.

- For scanned images, your scanner resolution needs to be 600 dpi if you are using a photograph that is not digital.
- The finished size will be 20"-22" wide x 30"-34" tall.

Selfies will not be able to be cropped.

- Have someone else take your photo or use the self-timer.
- If you use a smartphone to upload your photos, make sure the file is as large as possible. 150 dpi is preferred.
- The photo should take a vertical picture of your upper body at eye level while including background space around your head and shoulders.
- Stand 3-4 feet away from the camera
- Anything beyond your shoulders will be cropped.

What are you wearing & what is the background?

- Make sure your clothing isn't the same color as the background or else you'll appear as a floating head!
- If you wear a hat in your photo, make sure it doesn't cast a shadow that will conceal your face. We suggest taking a photo in front of a good light!
- Don't hide your pride! Wear team colors or jerseys to show team support.
- If you are a glasses wearer, try angling your face to prevent glaring and avoid using flash.

Cropping your photo & lighting:

- Crop the image so that your arms are inside the right and left edges of the frame.
- Make sure the base of your neck is at the center of the frame.
- We will customize the outline to the artwork because every body is different.
- Good lighting is a must! Do not stand in front of a window or door with the light behind you. Be sure to face the light source.
- Choose a solid-colored wall for your photo's background. If you don't have a solid-colored wall, try a sheet or blanket as a photo background.

*Images that portray obscene, lewd, explicit, discriminatory, derogatory, violent, offensive, infringing or otherwise inappropriate content are strictly prohibited and will be discarded.

Use a timer instead of a selfie.

Avoid shadows on your face.

Keep your hands in close to your body
